

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Theory and *Practice*

- Revenue Management is now an established science. The science of RM includes:
 - Estimation of price elasticities
 - Statistical analyses of demand patterns
 - Regression-based forecasting
 - Overbooking based on no-shows & cost of over-booking
 - Mathematical optimization including linear programming
- On the other hand, there are a multitude of constraints to an individual airline's application of the science
 - Strategic, Financial, Legal, Technical, Organizational, Competitive
- A revenue management analyst today should understand the science but he must also understand its use – and misuse – in real world challenges his airline faces.
