#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Mechanical Construction Project Manager

Description:

Harell Fish Incorporated Mechanical & Building Solutions (HFI) is a full service contractor delivering successful projects on time and within budget in wide range of industries. This requires estimating, sales, and management/coordination of materials & equipment delivery, field personnel, office support staff, subcontractors, and other trades. Our team is experienced in meeting all client challenges.

Due to our recent growth and development plan we are seeking a team member with Mechanical Construction Project Management experience to work within a team environment to provide truly exceptional client service.

Duties include but are not limited to:

- Manage and coordinate construction projects from conception to completion
- Understand all projects in-depth to order materials/equipment, issue subcontracts, and develop billings
- Work in conjunction with HFI field supervision to coordinate and direct construction workers and subcontractors
- Complete and manage all RFIs, change orders, submittals, and etc... Ensure all project team members are fully informed of this information
- Plan ahead to prevent problems and resolve any emerging ones
- Estimate and sell plan/spec projects and design-build projects
- Analyze, manage and mitigate risks
- Work with jobsite supervision to ensure safety on the jobsite
- Oversee all onsite and office constructions to monitor compliance with building and safety regulations
- Ensure contractual conditions of performance are met

Requirements:

- Proven working experience in construction management
- Knowledge of HVAC & Plumbing systems, building products, construction details/design and relevant rules, regulations and quality standards
- Familiarity with construction management software packages. Overall strong computer skills
- Ability to plan and see the "big picture"
- Competent in conflict and crisis management
- Leadership and human resources management skills
- Familiarity with construction management software packages. Overall strong computer skills
- Ability to plan and see the "big picture"
- Competent in conflict and crisis management
- Leadership and human resources management skills
- Self-motivated with excellent time and project management skills
- Ability to work within an environment with deadlines while having to multi-task with multiple priorities.
